BEEF TEA versus BOVRIL.

BEEF TEA.

"Were it possible to furnish the market, at a reasonable price, with a preparation of meat combining in itself the albuminous together with the extractive principles, such a preparation would have to be preferred to extractum carnis, for it would contain all the nutritive constituents of ment. I have before stated that in preparing the Extrac of Meat the albuminous principles remain in the residue; they are most nutritive, and this is certainly a great disadvantage.

> BARON LIEBIG. Discoverer of Liebig's Extract, in The Lancet, Nov. 11, 1865.

BOVRIL

Was invented to realise Baron von Liebig's desire for a meat food that would contain not only the stimulating properties of flesh -as all Meat Extracts and Beef Teas dobut also the nourishing properties of flesh, which Meat Extracts and Beef Teas do not This has been accomplished by first taking the extractive principles by the Liebig process (which is akin to home-made beef tea) of it and then adding albumen and fibrine, procured from the flesh of other oxen roasted and finely ground to powder; the combination is Boyril.

NOTES AND COMMENTS.

China New Year. Once again China New Year is upon

us with its, to Europeans, strange customs, and observances. Bonham Strand and Jervois Street are as usual at this season, crowded with stalls selling every description of article dear to the Chinese heart, from toys of wierd and fanciful design for the children, to gaudy clothing for their elders, and even the globetrotter has not been forgotten, for curios of all sorts are displayed to tempt him to part with his dollars. To day throughout the whole of the town there is great bustle and confusion. Chinese of all classes are hurrying to and fro and jostling one another, some eager to collect all that is owing to them in order to square their accounts for the New Year, others intent on purchasing the last of the viands for tomorrows feast. Work, in the ordinary accepta tion of the term, seems to have ceased altogether. Everybody is busy settling up for the old ... RACES.

year, and a very busy time it is. But otherwise there is nothing doing. The D cks have no boiler makers nor mechanics work, the harbour is empty of cargo boats buildings in course of erection are, deserted by the bricklayers and a general stagnation

seems to have set in everywhere.

Still, nobody can blame the Chinese for taking full advantage of their annual holiday. They do not, as we do, work six days out of the seven, but carry on their businesses from year's end to year's end without a break, except at New Year, and then they take the whole of their Bank Holidays in a lump, instead of spreading them out over the whole year as we do. To the European mind there is something strange in the thought of such a general cessation of work as occurs in China, but "East is East and West is West" and national customs must differ the world over. This is the only time in the wer when our servants, apart from the timehonoured excuse that "Olo father b'long sick," require a real holiday, and taking all things into consideration they well deserve t, for nobody can accuse the boy of being at all particulay about his "Sunday out as is the European maidservant.

How the Empire of China has fared during the past year we all know too well. The whole time has been spent in long dragged out negotiations with the Powers for the settlement of the claims arising from the Boxer-trouble, and even now they are not by any means concluded. Trade has, we believe prospered, and we know that much capital has been invested in the Colony by Chinese. House property has risen steadily, but now seems to have reached its limit, the price of everything has risen in proportion and we seem to be flourishing. How the New Year will affect us nobody can say, but it is to be hoped that we may see trade restrictions removed and the awakening of China really commence in

We take this opportunity of wishing all our Chinese readers

Such unterprise is quite a new thing in the experience of Tientsin, and we can but express our sincero hope that it will have its reward.

DONE TOO BROWN! A Bangkok paper tells a story about a cook, a capon, and a gull, Dissatisfied with the work of his cook, a cer tain resident summoned that artist before him one day and complained of a capon being burnt. After delivering a little homi'y upon carelessness, he said that the price of the bird would, as a lesson, be deducted from the ser vant's wages. "All li," said the frate cookee, that nok belon g mine," and he grabbed bird and retreated with it to the basement.

patch says: There is a large nunnery, attachthe part of England, France and Germany and ed to the temple of the Goddess of Mercy in probably Japan, with a less number on the this city. The number owns a very large estate in land whose rental is sufficient to support more than forty nuns at a time. The tran-THE LATE MR. YAP KWAN SENG :- It | quillty of these devotees has inover been disturbed. The condition of affairs however, has undergone a change, and the local authorities have decided to turn the numbery into a coilege for Western learning, by putting the old nuns in a smaller building, adjoining the temple, and with regard to the younger nuns, they are ordered to be married to people of their own choice.

Jan. 31.-The U.S. House Committee recommends considerable reductions 'in taxation, as the forecasts of estimated revenue show too big a surplus. It is proposed in the Committee's report to repeal all the taxes which were introduced at the time of he war with Spain, except the export duty on flour. The diminution in revenue is estimated at seventy-seven millions per annum. - Shanghai Times.

Correspondence posted up to 9 a.m. only will be sent out for delivery on that day. The Night Box will be kept open from 11.30 a.m. The Money Order Office will be closed on both

> THE QUESTION OF MEALS is generally a vexed one at Chinese New Year, for it is the only time when the whole of our servants require a holiday, and consequently household arrangements are more or less upset. Mr. Ruttonjee has come to the rescue this year and is supplying special tiffins and dinners at the Queen's Hotel, Kowloon. Doubtless many people will be glad of this opportunity of escaping the feeding difficulty at home, and the Queen's Hotel will be kept busy to morrow.

INTERESTING TO TRAVELLERS :- The Russian Government, actuated by the desire to prevent the outside world from becoming acquainted with her work and purposes in Siberia and Manchuria, has hitherto kept travellers out of these countries except under such restrictions as would limit their powers of observation. Orders have now, however, been received from St. Petersburg instructing the authorities to remove these restrictions, and especially, to do everything in their power for the encouragement of immigration. We fancy this will prove, as many other Russian diplomatic announcements have done, to be merely a case of p'raps !

ALLEGED EXTENSIVE FORGERIES:-At the Shanghai Mixed Court on 30th ulto. a compradore named Hin Yuet-chin, was charged with forging and altering certain delivery orders, the property of Messrs Castle Brothers: Mr. Loftus Jones, B. L. who appeared on behalf of the Shanghai and Hongkew Wharf Co., before the granting of the remand which the Magistrate intimated was about to be allowed, but on the application of a representative of Messrs. Castle Brothers, the request was refused and the case adjourned till the 4th inst. It is alleged that prisoner is implicated in certain forgeries of unusual magnitude and it is expected that the case when it does come on for hearing will prove to be one of special interest."

INTERESTING TO HONGKONGITES :-No mention of a special kind appears to have been made in any of the reports of the Lord Mayor's dejeuner to the Marquis Ito of twogentlemen whose presence at the festive board must have awakened many curious recollections in the mind of the ex-Premier, These were Mr. William Keswick, M.P., and Mr. Septimus Vaughan-Morgan, the first-named of whom is a member of the firm of Jardine, Matheson, and Company, through whose instrumentality the Marquis and four other youths escaped from Yokohama a great many years ago. Mr. Keswick, it will be remembered, was formerly a member of the Legislative Council; at Hongkong, and was also a Consul and Consul-General: Mr. Septimus Vaughan-More. gan, on the other hand, who is a brother of Alderman Vaughan-Morgan, was a passenger by the very vessel that conveyed the Marquis to England, whence he was so soon destined to jeturn to Yokohama.

A QUESTION OF POSITION :- A nauticalfriend tells us, says the Tientsin paper, that he and several others strongly suspect that the Latitude and Longitude of Taku, as marked in the Admiralty charts, are appreciably wrong, This is quite possible; every chartographerkrows that most of the fixes of the great Chinese cities throughout the Empire are many miles out. Few places in China have had their Longitude determined by the rigid telegraphic method, and in the old days, when the Jesuit Fathers did such good work, the Longitude problem was still in its infancy. As regards the Letitude, that is a much simpler affair; but before declaring any place in North China wrong, we should like to be assured that the observers have confidence that their tables correctly express the refractive influence of the air (in working their altitudes). In the Gulf, this element of refraction plays havoc with the distances of visibility of the lighthouses. A light, charted as visible at fifteen miles, is occasionally seen at twenty or twenty five, and in clear weather the reverse phenomenon sometimes takes place, a twenty-miles light is

not seen at twelve or fourteen. COTTAM & CO. NEW SCARVES and

THE "WATERWITCH "WANTED :- The British Municipality at Tientsin has memorialised the Admiral through the proper intermediaries to place the surveying ship Waterwitch in Pel-ho waters this year. It is understood that the Russian Admiral may be asked to co-operate, as he also has a surveying vessel in the Far East.

ARMY RETIREMENTS :-- Amongst the Army retirements due to occur in 1902 are those of Col. N. P. O'Gorman, lately D. A. A. G. Hongkong, and previously of the 58th at Singapore: Col. W. H. Chippindall, R.E., C.R.E. at Belfast, formerly at Singapore; Col. Half a dozen lines of hose were speedily laid on, by means of which the burning premises were deluged with water, and in a short space of time thereafter there was no further danger to be apprehended from the fire. Four houses were completely destroyed and three others pretty badly wrecked by five and water. The contents of fire of the premises were covered by insurance, the risks amounting to some Tls, 5,000 in all,

THE SATE Mrs BRAZIER:-Peking pand Tientsin residents will learn with unfeigned grief of the sad death of Mrs. James Brazier (in childbirth) at Aberdeen during the last week, says the Tientsin paper. The deceased lady had. hosts of warmly attached friends up and down the whole coast of China; her amiable disposition and social virtues made her a great favourite in every Port to which she accompanied ber husband, the popular Commissioner. Great sympathy will be felt for Mr. Brazier and his three little folks, also for Dr. and Mrs. Myers the parents of Mrs. Brazier. ANNUAL MEETING.

At the 21st annual meeting of shareholders in the Hongkong Ice Company, Limited, held at the offices of the Company yesterday there were present Messrs. J. J. Bell-Irving (Chairmai), W. Parlane (Manager), T. S. Forrest (Secretary), G. C. Anderson, T. Arnold, J. H. Cox, W. A. C. Cruickshank, Ho Fook, R. H. Potts, K. McK. Ross and G. T. Veitch.

The Chairman said -Gentlemen, the results shown in the report before you are so favourable that I think you will be satisfied with few comments from me on the working. The policy of writing down your property, thus strengthening the position against any possible opposition, will, I am sure, commend itself, and I anticipate your approval of the other recommendations as to dealing with the balance of Profit and Loss Account. Profits have increased annually in the past owing to the steady increase in the demand both from the shipping and locally, and at present the probabilities seem to be that these improving results may continue. It may interest you to know that the quantity of ice supplied to steamers during last year exceeded the local consumption. The plant at the works is now of the most modern and economical kind. The cold storage buildings with fittings have been completed at a cost of \$61,500, and although there may be no satisfactory return from that outlay for some little time, I hope shareholders will regard this extension as supplying a much required real want, from which, in due course, there is good prospect of a fair revenue being derived. Much credit is due to Mr. Parlane, who has the interests of the Company at heart, and has managed it so carefully and satisfactorily for many years. With these remarks I-

move the adoption of the report and accounts. Mr. Cox seconded, and the motion was agreed to,

SANITARY BOARD.

At a meeting of the Sanitary Board held last | place." Thursday in the Board Room there were present: -The President Dr. J. M. Atkinson, (Principal Civil Medical Officer), the Vice-Presidents Hon. A. W. Brewin (Registrar-General), Hon. W. Chatham (Director of Public Works), Col. . Hughes, R. A. M. C.; Mr. F. J. Badeley, (Acting Captain Superintendent of Police), Mr. Edward Osborne, and Mr. G. A. Woodcock, (Secretary)...

RAT DESTRUCTION. With reference to this matter mentioned in our volumns yesterday, the following discus-

sion took place :-The President-With reference to the remarks of the Director of Public Works, Professor Simpson's experiences in South Africa' have, I think, been otherwise. He says that there they found it very useful indeed, and were able to trace the disease in different districts of the town from the rats that were infected. . Mr. Osborne-The matter is referred to the

Chamber of Commerce, is it not? The President-No; that is another question; the question of SO 2 gas. "It is hardly a specific. It is merely infecting the rats with another infectious; disease. I think it would be worth trying; we want to try every way we can to get along.

Mr. Osborne-What is it proposed to do?

The President-The idea is to cultivate some of this bacillus-Professor Simpson has brought some of this-and when the bacteriologist arrives in a fortnight's time he is going to ask him to make as much as possible and spread it all over the town.

IN A FIX CATS NOT WANTED. The suggestion that Chinese be encouraged to keep cats was next considered.

The President said-The only objection to that is that cats also contract the disease. I saw from a report of a Commission in India that cats also contract the disease, so I do not know whether, knowing that, we should be justified in increasing the number of cats.

Mr. Osborne-There would be a great danger, it appears to me, from plague being contracted by the cats from the rats.

- Hon. W. Chatham-Most people dislike rats intensely while many are fond of cate; therefore the centact would be closer with a cat that happened to be infected than with a rat."

Mr. Osborne-I don't think it is much use our taking the matter up. We have quite as muchas we can do to get the Chinses to fall in with other sanitary arrangements, and I don't think, anyway, that we can encourage them to keep cats if they don't want to keep them or pay for

The President-I move we reply that seeing cats contract the disease the Board does no. think it would be advisable to encourage cats. This was agreed to.

., CLEANSING OPERATIONS.

The President, in the absence of Dr. Clark, moved :- "That the Board define that portion of the City of Victoria, east of Tank Lane and Cleverly Street, and west of Glenealy, Wyndham Street and Peddar Street, as districts within which officers of the Board shall make a house-to-house visitation for the purpose of cleansing and disinfecting the premises contained therein, in accordance with Bye-law No. 1 of the Bye-laws governing the prevention of epidemic or contagious disease made under section 13 of Ordinance 13 of 1901." He continued-This is necessitated by the fact that the cleansing operations have reached this district, and it is required that the Board should

HIGH BUILDINGS. Messrs Leigh and Orange wrote applying on | Furniture behalf of the Hongkong Land Investment and Agency Co., Ld., for permission to erect a block of offices on the North portion of Praya Extension of M. L. 7, 2c, of a height of 92 feet to eaves; the also, to erect a block of offices on the North portion of Praya Extension of M. L. 2, A and B, of a height of 78 feet to the caves. Detail plans of theabove buildings had been sent to the Public Works Department.

The Medical Officer of Health minuted:-"I do not think that these buildings should be higher than the immediately adjacent ones." The Director of Public Works reported that the heights of the buildings on Marine Lots 102 and 103 were as follows :- North block-ground level to highest part of building, 115 feet ; ground level to caves, 76 feet. South block-ground level to highest part, 133 feet; ground level to caves, 86 feet.

Mr. Osborne moved that the application be granted, and explained that they were not Chinese tenement houses, but solid blocks going up on the Reclamation, having a frontage on the Praya on one side and Chater Road at the back. They would be occupied solely. as offices, and no one would be sleeping there at night. He thought it would be very desirable that the Sanitary Board should not interfere with such progress in this Colony. The amount. of space available for offices was very small indeed, and it was contracted in narrow limits by the Reclamation for the Naval Yard If the business offices of this Colony were to be encouraged, a convenient place must be got for very large blocks of buildings. ...

Hon. W. Chatham-I beg to second that, and I think the remarks which Mr. Osborne has made will commend themselves to all members, of the Board. As he has stated, the conditions are quite different from those prevailing in the case, of tenement houses, and can see no objection to granting the application in this matter.

The motion was carried.

WATER FAMINE. Orders were issued to the effect that prosecutions were not to be taken in connection with the cleansing of houses if a house was merely. dirty from the want of water, but that where

OTTAM & CO., PLAID RUGS and SILK MUFFLERS for the RACES,

The matter arose out of an observation made by Mr. Osborne to the effect that he saw a paragraph in a contemporary stating that a poor old woman had been fined for not cleaning ber house, and that the reason, she had not done so was because she could get no water to

NOTES FROM NATIVE SOURCES.

A Tientsin native correspondent sends us the following notes, dated 25th ulto .:-THE RENDITION OF TIENTSIN.

It is said that the British Minister, Sir E. Satow, refuses to discuss the question of the handing back of Tientsin Native City so long as Jung Lu, the notorious Boxer leader, holds a seat in the grand Council and maintains, his influence at Court. Yuan Shih-kai sent one of his secretaries to visit the Japanese Minister last week and ask him to lend, his aid to persuade the Powers to, restore, Tientsin Native City. The Japanese Minister replied that China had better apply to the Russian Minister. upon whom she had relied so often of late. THE COMING CORONATION.

Tsai Chen, a son of Prince Ching, has been appointed Special Ambassador to represent China at the coming coronation of King Edward. He is in high favour with the Empress Dowager on account of his ability, and has had the title of Bei-leh conferred upon him. Sir Liang Ching will accompany him as a firstclass secretary and may falso be appointed Minister to the United States, Spain and Peru, in succession to Wu Ting lang, Tsal Chen will probably start for England in March.

A RUSSIAN MOVE. Mr D. D. Pokotilow, Co-manager of the Russo-Chinese Bank in China and Japan, has presented a petition to the Chinese Plenipotentiaries, praying for the sole rights for the construction of a railway line from Peking to Kalgan, a distance of some 130 miles. It is believed that even if the petition be granted immediately, the line will not be commenced this year, but that the Russians are anxious to: get ahead of the British in obtaining this important concession.

JAPANESE ENTERPRISE. Since the Boxer trouble the number of Japanese residents in Tientsin has increased. by leaps, and bounds to about 2,500. Mr. Nishimara, the proprietor of the Tientsin Daily News, a Chinese paper, is preparing to publish a Japanese weekly paper in Tientsin. The first issue is to appear on February ist. Mr. Nishimara is a good Chinese as well as Japanese scholar and will edit, the paper himself. It is said that he will soon start an English paper, but as he does not understand much of the language, is desirous of engaging Mr. Yuen Tung Kwang, a

THE RAILWAYS. H.E. Hu Yu Fen, the Assistant Director of the Northern Railways, had an interview with Sir E. Satow, the British Minister, a few days ago, and asked him when the railways would be handed over to the control of the Chinese Administration. To this Sir E. Satow replied that Yuan Shih-kai was not considered to be a suitable man for the position of Director General of the Northern Railways and that the line could not be returned to China until another man had been appointed.

well-educated Chinese, as editor.

THE HEIR APPARENT QUESTION. Po Chun, the disinherited Heir Apparent, has arrived at Peking from Kai-leng-fu and the Empress Dowager has commanded that he be looked after by his uncle Tsai Ying.

It was previously announced that Her Majesty would appoint Pu Lun as the new Heir Apparent. It has transpired, however, that he has neither ability nor virtue, and the Empress Dowager has therefore altered her decision.

LAND BOOM AT BANGKOK. From Rangoon round the coast to Bangkok,

and farther east there has been an uneasy boom

in land values for a year or two past. As a

rule land sales still produce wonderful prices, but there is no mistaking the uneasy feeling with which those most intimately concerned regard the future. Roughly it may be said that the boom was due to the fact that the Asiatic came generally to recognise what is meant by the unearned increment of town land, but did not so readily recognise that the limit of the addition to the real value of the land is perfectly definite. In Singapore, for example, the Asiatic has the land sales all to himself; the European is waiting till values find their natural level lagain, as they will by and bye. The Australian people, be remembered, had their rude awakening, some years ago; the land slumped and took the Banks with it in one wild ruin, -and the Banks at least have laid that lesson to heart. The history of the boom in Bangkok is pretty well-known. It was created by the belief that the area from Oriental Avenue to the British Legation would be the centre of a Municipality, within which the value of land-would go-up enormously. The Siam Land Company took the current when it served, and cleared a tidly . profit, out of which, it is stated, the new and palatial Bangkok offices of the East Asiatic Company, Ltd. have been built. But the boom had petered out eyen before that lucky Company had finished its sales. To-day there is land for sale all town, but it seems to be thought that, if that fact can be kept dark, boom: prices will some. how be maintained. As a matter of fact sales cannot be effected at these rates, and quite a number of those who, are holding out are paying considerably for the accommodation to enable them to do sor. But if fancy prices are impossible, land in a favourable position does still fetch a price that ought to satisfy a reasonable owner. The property in Klong Poh Yome-road belonging to the estate of the late. Captain Fowler was sold the other day for 10,000 ticals odd. It was bought by Captain Fowler only a few years ago for 8,000 ticals, so that it had gone up about 25 per cent in value. Still, against that has to be put the fact that he fenced in the whole property, a very considerable item-of expense, And the estate: it may be said, was lucky in the fact that the Chinese purchaser, was anxious to obtain that piece of land for himself; speculators were neither numerous nor enthusiastic at the sale. When Poh Poh Yome cut the canal in 1889 this land was sold in 1,000 tical lots (with a 3/6. dollar) but Captain Fowler's property, we believe, extended to two or more of the original lots. For Bangkok a genuine rise in value ought to be considered satisfactory, but if boom prices are wanted owners will have to wait long. The French Legation recently offered big prices for two plots of land in Custom-House Lane, but though the owners were willing to sell they stuck out for absurd rates; with the result that they were allowed to keep their land. The Privy Purse is presumably waiting till it can get the usual to per cent on its outlay on the houses and ground between Oriental Avenue and Custom House Lane, These big empty houses do not exactly im. press one with the business acumen of who: ever is responsible for them, but the Department is no doubt standing out heroically for a principle. It can afford to do so, but the The Peking-Tungchow Railway, forty li in majority of those who have land to sell cannot length, has been completed and passenger afford to be so unbusiness-like, and in a very trains are now running. The line has been short time the lowered market value of land built with capital supplied by the Horgkong will have to be admitted and accepted.

AS OTHERS SEE US.

HNGLAND'S DEEP LAID SCHEME IN CANTON

. The Sin Wim Pao gives us an interesting account of certain educational enterprise is Canton which is the subject of considerable official correspondence. It appears that wealthy Jew of Hongkong and a wealthy Chi nese of the same place, Liu Holing, have subscribed a large sum for the purpose of opening a School in Canton for the sole purpose of teaching English: The Viceroy Tao Mou was asked to give his official safiction, which he did. The regulations were, in his opinion, very satisfactory, and he would give all the help possible. The petitioners even asked him to become, President; and though he declined the honour as unnecessity, he promised to stand by the school,

The prefect of Canton, Hung Chia-yu, how ever, was suspicious that the school was a deep laid English plot to capture the people's hearts, and therefore prayed the Viceroy to stop further progress. The Viceroy replied very sharply. to the Prefect upbraiding him for his suspicions in a long despatch reproduced in the columns of the Sin Wan Pao. The Treasurer handed the Viceroy the remarks of the Prefect on the School which was named: "The Norrish-Talent School." The Viceroy acknowledged that the Prefect's petition was prompted by loyalty and fear lest his country should suffer. But his suspicions and forebodings were excessive. If we were to follow this fect specially single out England?

Look at England's present position in Hongkong and Kowloon and you will see the ab-. surdity of your suspicions of this school. If she really wanted to seize the province of Kuangtung, she is in a position to do so, for she already holds the keys. She surely would not count on this school as essential to her ships and armies. But she has no such desire.

The Prefect's petition says that England after swallowing Kwangtung, will scize the Yangtse valley, Honan and Shansi. This idea is still more absurd than the other. Surely if she had this desire she would go about it some other more direct way. She would certainly not expect a little school in Canton to accomplish so thuch !

The Prefect says the founders of this school are anarchists, and therefore the school wil propagate revolutionary ideas. The Viceroy replies that anarchists are enemies of all Governments and therefore is it likely that the English Government would use them as its agents in territorial designs? The anarchists would not listen to the suggestions of any government to aid them in any way whatsoever. If anyone alleges that the presence of Kang Yu-wei, and Sun Wen in England would be taken advantage of by England to send these men as agents to China, such a thing is incredible. Neither would Japan nor Amercica use other refugees on like errands.

It is true that we Chinese stare when a : foreigner expends vast sums in China to establish schools, and suspect such generosity of ulterior motives. The rarity of such liberality makes it all the more extraordinary. . Hence the Prefect's suspicions are natural. To this the Viceroy replies that this Jew evidently wants to make a name for himself and that is a sufficient explanation. In England he is looked. on as a man without a country and hence is despised. Hence such a gift in a British colony would not bring him fame. He reasons that such a gift to China would assuredly make his name immortal and he chooses China as the field of his philanthropy.

As to the Chinese, who joins the Jew in this school, he has made money in Hongkong, and he also wants to make a name for himself. Moreover he states that foreign religious books will be excluded from the school. The Viceroy is delighted with his wisdom, and is ashamed that officials fall behind this merchant in zeal for the people's weal. He will give him a reward also, to encourage the others to go and do likewise. The Prefect's words are very unhappy, and will possibly deter others from such good schemes. The Viceroy deeply regrets that the Prefect ever wrote them, for they fatally obstruct education.

. The Viceroy then replies in detail to the criticisms of the Prefect on the rugulations the school. These regulations appear to him to be perfectly correct. - Mercury:

THE MISHAP TO JAPANESE TROOPS.

FURTHER PARTICULARS. Kone, January 30th.

An extraordinary disaster is reported from

the north of Japan. Theisecond battalion, of of the Hirosaki regiment, Sendal Division, while marching over the hills to Tashiro, PIUM QUOTATIONS. encountered a heavy snowstorm, which in a little while not only obliterated all trace of the To-day's quotations are as follows ;-path, but completely obscured the-view and made it utterly impossible to go ahead. After repeated endeavours to get forward or find shelter, the officer in command was compelled to order a bivouac in the open, the men being too exhausted to attempt any further marching even if it had been possible to find the way During the night, the cold intensified, and in the morning all except one sergeant were found PRESIAN-Superint drug was sold @ 103 frozen to death .- Shanghai Times.

QUEER SURVEYING.

Some missionaries, when passing through a city some 25 miles from Tientsin, a short time ago, were told of a number of foreign, soldiers who had spent the night there a few weeks before, and who were thought to be surveying. and mapping out the roads of the south towards Te-chou. The native servants and interpreters: of these soldiers made the usual-demands (black mail) for food and money; though the, natives had previously suffered much at the hands of the same, folk, they allowed themselves to be fleeced once more.

At another place, the missionaries had to spend a cold night in an inn, which was without doors and windows, as these same soldiers, it was said, had burnt them all for firewood some months ago, when passing through. In the same city, the official in charge in 1900, had been cruelly badgered and beaten to death by the same troops because he was not prompt inmeeting the demands made upon him; his body was left in a ditch outside the wall. He was an old man, a native of An Hul, and one of the mildest officials that these missionaries had ever known .- P. & T. Times.

THE SINGAPORE POLICE.

A SEQUEL TO THE BANK CASE.,

It is a matter, for comment that Detective Inspector Watcham, Sergts. Brace and Frayne and the four native detectives prefect's advice the patriotic ardour of Chinese who were acquitted, at the Assizes of would cool, and the development of Schools | the charge of causing ill-treatment to certain would be arrested. Hence the Viceroy begged prisoners have not been re-instead in their to differ in thin from the prefect. The latter's respective positions, says a recent issue of the evident desire was to avoid England and make | Singapore Free Press: At an ordinary time an alliance with Russia. Hence, whenever he perhaps the fact might pass almost un-noticed, saw the English doing anything, he at once but in view of the prevalence of crime of late, suspected a plot against China. But the Vice- especially in thefts and burglaries, and the roy, while not denying that England, as other | deplorably madequate Fical Police staff, every countries, was capable of deep designs, yet effort should be made towards relief and this held that if China bestirred herself and pro- | can hardly be brought about by keeping at gressed in strength, even deep designs would least three of, the European Police-and fail of their accomplishment. Such suspicions detectives, above all-idle. To add to the 1973el attach to all the powers, as we constantly see | unusually beavy departmental work at this in the newspapers. Why then should the pre- | period of the year, in the guise of returns to be made up, new and exita work has been thrust upon the Police by the coming into peration of the new Criminal Procedure Code.

BANK NOTES AND WRECKS.

The Government at Washington destroys about £300,000 worth of paper money every day; wormout stuff that is worthless as carrency. They turn it into pulp and afterwards it is made into car wheels, that form it may circulate several years more. For every note thus destroyed a new one of the same denomination is minimfactured. Therefore don't worry. There will always be bank notes enough for ne; the only trouble is to get them safely and sanigh ladged in our pockets. And that is as, hard a trick in America as it is in England,

Gold and silver coins also wear out and go to the melting pot to be recast. Wherever there is friction-

there is destruction more or less rapid.

It is this tendency of things to go to pieces that led.

Mrs. Elizabeth Shirt to speak of herself as a physical wreek. Ships that get fast on rocks and are there immmered into bits by the waves, obviously suggested

In her own account, written on the 10th August, 1900, she gives us the main facts. There is nothing novel in them, which is all the worse; for if cases like here are rummon the reasons for trying to prevent them, or to cure them, are all the more imperative and pressing. Suppose, out of every four vessels navigating English waters, one at least got wrecked between the Scillies and the Isle of Wight ! -Why, man, if would almost wake unthe Admiralty And yet the community is full of just such "physical wrecks" as Mrs. Shirt says she was. Surely there

must be both weak versels and bad steering in this In plain falk her story rans this way :- For fully twenty years I was subject to broughitis and indigestion. I was never free from these allments : never

well. Even in the best of the summer weather my breathing was bad, and as soon as over the cold and wet of winter set in I was hid up altogether. "In December, 1897, the influenza gripped tight

hold of me and for some days my condition was Titical. - At last after a stiff fight, I recovered from the influenza, but it left nie weak and exhausted, with the bronchitis worse than before. " Nearly everything I ate made me sick or else

canted a sinking, grawing pain in the chest, as if something wanted to come up but could not." (There are certain complaints which seem to do more damage with their talls than with their jaws-as whales do when they fight sailors in the sea. One of the worst of these is influenza; its action on the stomach and on the nerves that control digestion leaves them like a house without doors or windows-

open to every thief and trump who comes along.) "Well," continues Mrs. Shirt, " this will help you to understand what I mean by a physical wreck. Sometimes I had to goep like a fish out of water and was so wheezy my breathing could be heard all over

"Then," says Mrs. Shirt, "a dry, hard cough fastened on me and shook my body through and through. Sometimes I got black in the face with it, and the sweat rolled off me as if I were in a steam Often I thought I should burst a blood vessel and die right out of hand.

" My sleep was so broken, and I ate so little, that a mere walk across the room tired me more than once when I walked for miles. Then there was that queer thump, thump, thump, at the top of my head; what caused it I don't know.

"My face was the colour of mahomany and I was such a wreck I fancied my time in this world was "The doctor attended me for a long while and did all be could, but when at last I was sure his medicine was doing me no good I gave overtaking it and began

taking Mother Selgel's Syrup. And that helped me as a mother's hands under its arms helps a toddling "I was better from the first bottle, and went on taking the Syrap and improving until I was completely cared. This was three years ago, and I, have never had a touch of my old complaint since. cannot praise the Syrap enough? (Signed) Elizabeth

THE NEW FRENCH REMEDY. THERAPION

This successful and highly popular remedy, as employed in the Continental Hospitals by Ricord," Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything

THERAPION No. 1, in a few days only, removes all discharges from the urinary organs effectually superseding injections, the use of which does inteparable barm by laying the foundation of stricture and other serious this eases. In dysentery, piles, irritation of the lower bowel, cough, bronchitis, asthma, and some of the more trying complaints of this kind, it will be found astonishingly efficacious affording prompt relief where other well-tried remedies have been powerless.

THERAPION No. 2, for impurity of the blood, scurvy, pimples, spots, blotches, pains and swellings of the joints, secondary symptoms, disease of the bones, sore throat, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to 'the destruction of the sufferer's teeth and ruinof health. This preparation purifies the whole system through the blood, and throughly eliminates every poisonous matter from the

THERAPION No. 3, for nervous exhaustion, waste of vitality, and all the distressing consequences arising from early error, excess, residence in hot, unhealthy climates, &c. . It posseses surprising power in restoring strength and vigour to the debilitated.

THERAPION may be procured of the principal Chemists and Merchants throughout the world. Price in England 2/9 and 4/6. In ordering, the purchaser should state which of the three numbers he requires, and observe that the word "THERAPION" appears on the Government, Stamp (in white letters on a red ground) affixed to every genuine package by order of Her Majesty's Hon. Commissioners, and without which it is a forgery.

THE UNITED STATES SENATE. A BITTER PARTIZAN DEBATE.

WASHINGTON, January 30th. The Senate, on taking up the discussion of the Bill for dealing with the Philippine Islands, plunged into the fiercest partizan fight that has been known in the Senate for many years. The discussion developed the bitterest rancour on both sides, and Iviolent personalities that were

indulged in made the scene highly sensational. In the course of the day, Senator Morgan introduced an amendment to the governmen Bill. He advocates that the plan proposed by the present Civil administration of the islands be ratified, constituting the affairs of the Philippines into a department of the United States Government, appropriating from the U.S. treasury funds the amount requisite for the support of the department, and providing for the collection of Philippine revenue by the

U.S. Government. Governor Taft has now arrived at Washington, and is at once to give evidence before the House Committee on Philippine affairs. Shanghai Times.
